Navigation Buttons let you see into the six parts of the site.

The Critical Mass Counter: A count of pulse members. Critical mass is the number of people it will take to start a landslide of change (active means logged in within the past 30 days).

Login Section: Login, and all changes to data are done here.

Tab Information: An area for display of detailed information on the subject Tab.

Side Information: Key information that stays the same throughout the site.

The screenshot shows the main page of www.rbepulse.com. At the top is a navigation bar with tabs: ABOUT, VISION, COUNCILS, CHANGEMAKERS, CANDIDATES, and CONCERNS. Below this is a login section with fields for Email and Pin, and buttons for LOGIN and REGISTER. A 'Critical Mass Counter' is prominently displayed, showing a count of 319 (227 active). Below the counter is a section titled 'What is the Pulse?' which explains the tool's purpose. To the right of the counter is a 'Pulse Counter - 319 (227 active)' box with a link to a 'User Guide'. Below the 'What is the Pulse?' section is a 'Tab Information' box with text about the RBE in 'rbepulse' and the 'Jacque Fresco RBE concept'. To the right of this is a 'The World Summit Movement' box with a link to 'World Summit Movement'. A 'Side Information' box is also present, containing text about a focal point and a link to 'World Summit Movement'.

Critical Mass Counter

What is the Pulse?

The Pulse is a tool for 'Dynamic Counting of Support', and it's a massive register of people around the planet who are aware that something needs to be done to leave the late-stage capitalist economy behind and move into a New Social System that works!

The RBE in 'rbepulse' is a 'RBE' (Resilient Business Economy) based Economy. This label is historical in nature and is intended to answer the question 'how many people in the world are even aware of the Jacque Fresco RBE concept'.

The pulse has long since transformed from an 'RBE' counter, to a counter for people who recognise, especially in the wake of the Coronavirus crisis, that the time is long overdue for us to be putting people before profit.

Pulse Counter - 319 (227 active)

That's 0.00004% of Critical Mass, only 749,999,681 to go.

The World Summit Movement

A focal point for 'join' organisations and progress towards a better world.

How to Register

To Register, type your email address into the box and click the [register] button.

We don't send any verification email, so registering is very easy, and instant. We use your email address for announcements and updates.

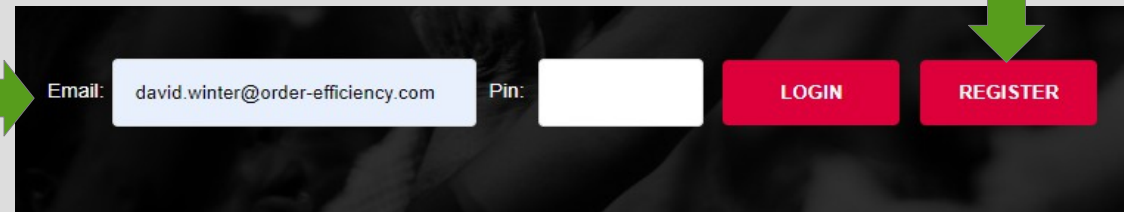

To setup your account, identity info is entered here:

Name: can be anonymous if you like (Mickey Mouse? James T. Kirk?)

Pin & Reminder: can be left blank or set to 4 characters (numbers or letters) and a short phrase to remind you, if you forget your pin.

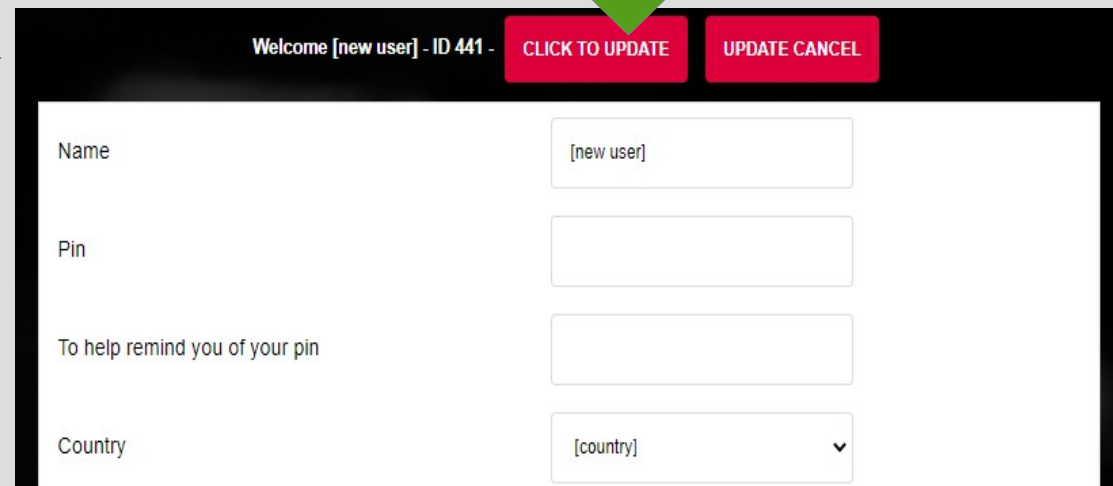

Country: important - this lets us build maps of how 'choices' spread over countries.

Leave the Pin blank for now.

A screenshot of a registration form. It features two input fields: 'Email:' with the value 'david.winter@order-efficiency.com' and 'Pin:' which is empty. To the right of these fields are two red buttons: 'LOGIN' and 'REGISTER'. A green arrow points from the text 'Leave the Pin blank for now.' to the 'Pin:' field. Another green arrow points from the text 'To Register, type your email address into the box and click the [register] button.' to the 'REGISTER' button.

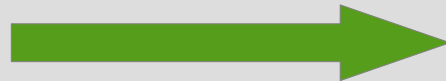

Lock changed data into the database by using the [click to update] button.

A screenshot of an account setup form. At the top, it says 'Welcome [new user] - ID 441 -'. Below this are two red buttons: 'CLICK TO UPDATE' and 'UPDATE CANCEL'. The form contains four input fields: 'Name' with the value '[new user]', 'Pin' which is empty, 'To help remind you of your pin' which is empty, and 'Country' with a dropdown menu showing '[country]'. A green arrow points from the text 'Lock changed data into the database by using the [click to update] button.' to the 'CLICK TO UPDATE' button. Another green arrow points from the text 'To setup your account, identity info is entered here:' to the 'Name' field.

How to Set Data and Make Choices

And you can enter your 'choices' info here:

Lock changed data into the database by using the [click to update] button.

Changemaker: choose your favourite or 'current focus. You can use this as a personal place-marker while researching change makers.

Council: choose the one that most represents your area of interest.

Candidates: this is a fun voting aspect of the Pulse. Have fun with these choices.

Permission to Email: Default is "Please Send", select "Do Not Send" for privacy.

Instruction to Remove: Default is blank, select "Please Delete Account" as instruction for us to delete your account.

Tab - 'About'

This tab explains about The RBE Pulse.

How is this site linked to Steve Saylor?

Steve Saylor is running in the 2020 USA Elections. This site is as interesting to Steve as it should be to everyone, but he has a dedicated tab for 'pulse taking' on his election chances!

The Councils part of the Pulse comes directly from Steve's assertion that if elected he will step aside and let the 'Systems' make the decisions. For information on the Councils and to take part in a discussion form, visit www.saylorforpresident2020.com. Also for a link where you can get Ananda's book "How The People Elected Systems For President"..

What am I signing up to?

To make the change we need a Critical Mass of people who think this way. This tool is a way to be counted as part of that number which, as it grows will form a solid reference to strengthen the message of each individual organization that is trying to bring the needed change into reality. You are signing up to be part of that number.

Tab - 'Vision'

The tab should more accurately be called 'Vision to Action'
It's a peek into Ananda Reeves' book
“How The People Elected New Systems For President”

What do we really want?

This is a powerful vision of the future that Ananda Reeves put into writing. Looking back from a time shortly after Steve Saylor wins the 2020 USA Election. In the story he has put into place some immediate strategies and is preparing to implement others.

End of December 2020 - USA has a New President

The election poles in the USA just closed after a nerve wracking political race, and the world is in utter SHOCK! The new President appeared in the race as a surprise to everyone, and somehow... he won! The people of the United States never believed it was possible to have a winning candidate from the “Money Free Party USA” ticket. But here he is! Just in time, right before we’ve nearly destroyed ourselves with this outdated and obsolete socioeconomic system. Mr. Steve Saylor, ladies and gentlemen, our new President.

A Money Free Country? Really?

Have we ever seen anything like this? A President who doesn't believe in money? What? How is this even possible? People can't wrap their heads around it. Huge questions are swimming around in everyone's minds, and the answers are yet to be determined.

Tab - 'Concerns'

Your opportunity to whine and complain, in a non-Facebook forum where your passion counts.

This is a place to express your concerns about what's wrong with the world (what's your beef?). Tell us what you think needs to be 'put right' and from our response you can see if others in your locality, or around the world, are thinking the same. The Pulse admin will absorb your concern into the global concerns bank. Come back and see the Status for news on this.

Title: Unconditional Basic Income

Description: Millions globally are suffering day to day stress attributable to lack of money for basic needs like food, accommodation, heating. This is the cause of many suicides and is what keeps people in a job that they hate and at which they cannot be effective. UBI could be a way to make a better society as people are freed to think about what they can do for society and not just for survival.

Desired Outcome: Stress free world population freed to pursue passions (care for children/elderly, learning, music, space exploration, energy development, environment, etc).

What Could Go Wrong: Continued stress leading to mass suicide, and stagnation of technological progress.

Current Situation: There are some countries experimenting with a UBI and now especially in wake of the coronavirus, there is a lot of 'noise' on social media and in the press about it as an inevitability.

Action Strategies: (1) Build the Pulse numbers to include people with individual beefs about UBI (2) List all of the organisations proposing UBI (3) Form local groups to lobby MP about introduction of UBI (4) Introduce Unconditional Basic Services (UBS) as a longer term solution to run alongside the more immediate UBI (5) ... [suggestions please]
